Storming Al-Aqsa Mosque and Attacking Worshippers is a Vicious Crime

Arab Organisation for Human Rights in the UK ([AOHR UK](#)) condemned the storming of the Al-Aqsa Mosque yesterday evening, in the last ten days of Ramadan, during which worshippers go to Al-Aqsa Mosque to worship and pray.

The barbaric storming, shooting, and injuring hundreds came two days before calls by [religious groups](#) to storm the Al-Aqsa Mosque on the 28th of this month to spread fear among the worshippers and prevent them from coming to Al-Aqsa Mosque and leave it empty for the invaders.

The storming of the Al-Aqsa Mosque never takes place without a decision from the highest political level in the occupation government, which means that this is going to be recurrent, thus reflecting the intentions of the Prime Minister of the occupation, [Netanyahu](#), to start a [religious war](#) in the region.

These repeated attacks are a clear indication of the involvement of those who rushed to normalize relations with the occupation entity and signed deals to invest in settlements and support [criminal settlement](#) projects and crimes committed by [settlers](#) and the [occupation forces](#) against Al-Aqsa Mosque and the worshippers.

AOHR UK called on the international community to take the necessary urgent measures to provide protection for the Jerusalemites and Al-Aqsa Mosque, as the international silence encourages the occupiers to proceed with their dangerous projects towards the demolition of Al-Aqsa Mosque and the construction of the so-called Temple.
