Biden and Sunak's hands are stained with the blood of Palestinians and they are fully responsible for all the massacres

Arab Organisation for Human Rights in the UK (AOHR UK) said that the massacres committed in Palestine, the latest of which was bombing the Baptist Hospital, in which more than 500 people were killed, are the prime responsibility of the President of the United States of America, Biden, the British Prime Minister, Sunak, and Israel's allies, who gave the green light to Netanyahu to start his aggression on the Gaza Strip.

Until the most recent massacre of the Baptist Hospital, the Western media continued to cover for Israel and to blame the Palestinian factions for the bombing, despite clear evidence that Israel bombed the hospital with two missiles.

Former massacres, statements of Israeli officials, eyewitness testimonies, rocket remnants, and warnings by the occupation army to evacuate hospitals, and targeting ambulance and civil defence crews confirm that Israel is responsible for this crime, just as it is responsible for many crimes it has committed since the beginning of the war on Gaza.

Ironically, despite all these crimes and the extermination campaign led by Netanyahu, Western politicians are still providing cover for his crimes. They continue to fly shamelessly to Palestine to provide moral and military support to the Israeli occupation, and while turning a blind eye to the thousands of victims and the destruction caused by the Israeli bombing of the most densely populated area in the world.

The condemnation statements are of no use if a bottle of water or any kind of aid was not allowed into Gaza, while the Israeli occupation has been receiving support from everywhere since day one.

AOHR UK called on the leaders of the Arab and Islamic countries to be courageous and send relief convoys to the Gaza Strip, regardless of the Israeli occupation's
