## Jordan allows the flow of American weapons to Israel

Arab Organisation for Human Rights in the UK ([AOHR UK](http://www.aohr.org.uk)) called for national and international prosecution of official the USA, Britain, France, Germany and other countries who provided military and political support in the genocide committed in the Gaza Strip.

In addition to giving the green light to the Israeli occupation to commit [genocide](#), these countries defend it, wash away its crimes, twist the truth about its crimes, and provide it with all kinds of lethal weapons.

The USA created an air bridge that made 62 US-Israeli flights to transport ammunition, missiles, vehicles, and spare parts.

AOHR UK criticised Jordan for allowing the US to use its territory to transport heavy military equipment on 15 special aircraft, as well as allowing the transport of special forces on one plane and two drones.

The US also uses Cyriot lands and airspace to transport weapons, where 20 aircraft transporting heavy military equipment took off from military bases in Cyprus.

AOHR UK warned that the ongoing military and political support for the Israeli occupation, and attributing religious beliefs to this war, would result in the outbreak of a devastating war between the West and the East.

AOHR UK called on the Jordanian government to act in line with its policy and the strong statements issued by the Jordanian government confirming that it is against the unjust war launched by Israel with Western support on the Gaza Strip. It is

unacceptable for Jordan to call in public to stop the war, while allowing US military support for Israel.

AOHR UK also called on the normalising countries to withdraw their billions of investments from Israel, sever relations with it, expel ambassadors, close their embassies in Palestine, and refrain from providing any form of support to this occupation.
